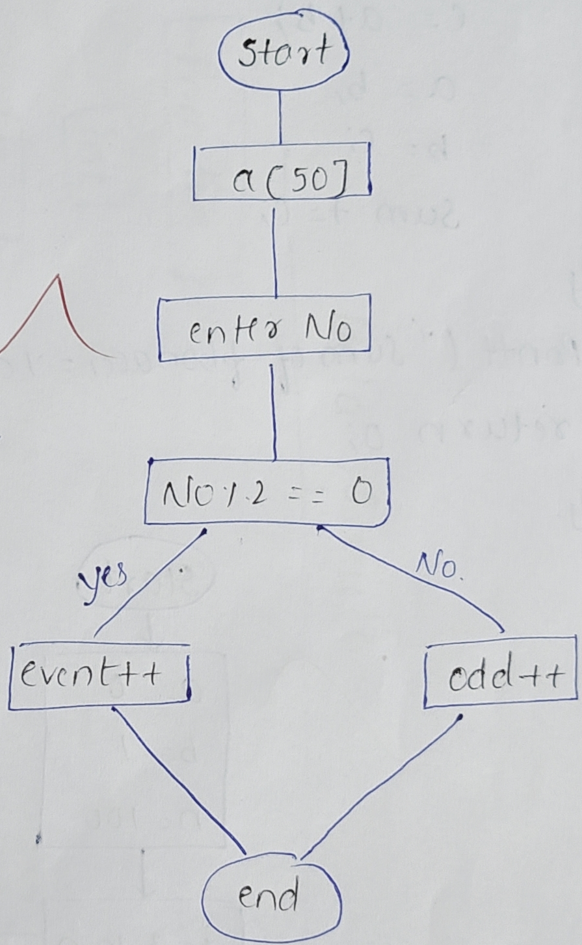
C01- ATI

① write a C program to count no of odd and even elements in an array of elements.

19/30

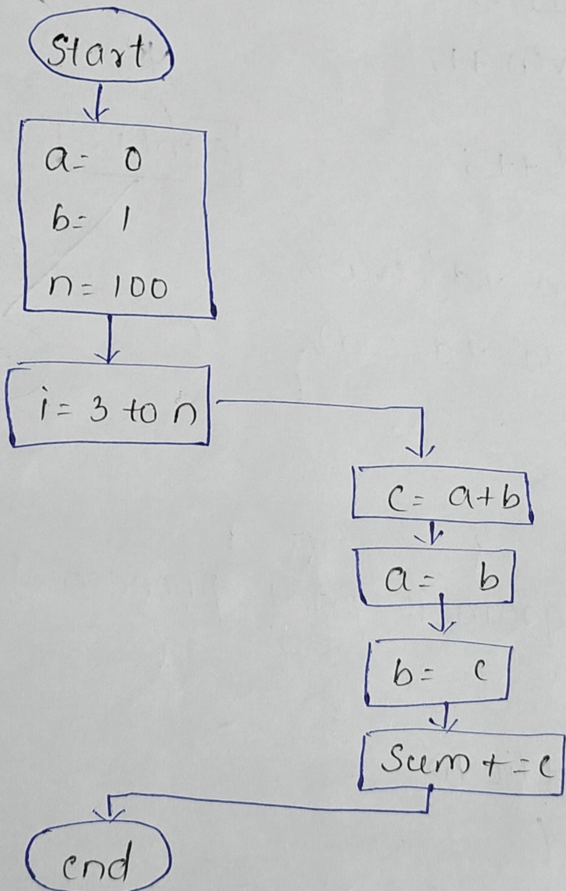
```
# include <stdio.h>
 int main(){
  int i, n, a[50], odd, even;
  odd = 0;
  even = 0;
  Printf (" No of elements");
  Scanf(" %d ", &n);
  for(i=0; i<n; i++) {
       Scanf ("%d", &a[i]);
       if (a[i]%2 == 0)
          even ++;
       else;
         odd ++;
   }
   Printf("even : %d", even);
   Printf(" odd : %d", odd);
   return 0;
}.
```



2. write a C program to print fibonacci series and sum of fibonacci series.

```
# include <stdio.h>
 int main() {
   int a=0, b=1, c, i, n;
```

```
int sum = 0;
printf ("terms");
scanf ("%d", &n);
for (i=3 ; i<=n; i++){
    c= a+b;
    a= b;
    b= c;
    sum += c;
}
printf ("sum of fibonacci = %d", sum);
return 0;
}.
```



Create a Concept map for data Structures and their classification.
